

Kainjoo careers · Job description

kaizen Project Manager.

Based in	**Morges, Switzerland**
Engagement	**Hybrid**
Type	**Full-time**
Experience	**Senior**
Team	**KJ. Kaizen Citadel**

The kaizen Project Manager is a central & instrumental player at Kainjoo. Attached to the Kaizen Excellence Citadel, she/he works closely with the consulting and production teams to ensure continuous progress in quality, timely projects and efficient budget management.

Personality.

- Curious, with a go-ahead attitude, you like business challenges and organise your activities efficiently.
- High energy, self-motivation and integrity
- Ability to work in a fast-changing and multicultural environment
- Flexibility and ability to work under pressure
- Excellent communication, analytical and presentation skills
- Strong negotiation and influencing skills
- New technologies and the web culture attract you, and you know the latest trends in this field.

Experience.

- Min. 10 years in a similar role
- Min. 5 years confirmed experience as a pharmaceutical player in a marketing or commercial operations department or a life sciences specialised agency.
- Marketing, Digital or Multichannel project management experience is a plus
- Experience in reporting data using online tools such as CRM or ERP
- Google Apps (Drive, Gmail, Calendar...) experience is a plus
- Microsoft Office experience mandatory
- Web-savvy

Education.

- MBA or Master's degree in Business or Engineering School
- Double competencies in a life sciences field are a plus.
- Fluent in English and French (written/oral)
- German a plus
- A minimum of Web/IT background is appreciated.
- kaizen/6sigma/Scrum/PMP certifications

About Kainjoo Consulting .life.

Kainjoo .life is the healthcare, beauty and hygiene-focused division of the Kainjoo Consulting Group. We are a strategic consulting firm crafting regulated brands through creative ideas and innovative solutions. Positioned as a global player in Switzerland, Kainjoo is the ideal partner for international organisations as well as startups looking to

- impact their marketing agility,
- expand their market penetrations, especially in emerging markets
- muting their internal processes towards more productivity

Kainjoo is composed of the following:

- a consulting team specifically designed for the strategic requirements of regulated/complex industries
- a delivery team focusing on creative, marketing and technology services
- a kaizen department that bridges the two as the project management powerhouse that enables our quality-focused culture

Recruitment process (1 month on average).

Should your profile match the above requirements, we would gladly receive your application in English. In line with its culture, Kainjoo Consulting Group SA is committed to ensuring complete confidentiality in treating all received data.
Our recruitment process ensures alignment between your expectations and those of the mission. It will help structure proper feedback in case of a non-match.

- Five working days upon receipt of your application, and if there is a match, a first interview with the HR representative will screen your CV, most likely by phone or skype.
- As a next step, a case study would be sent within five working days for testing your capabilities and present to the line manager during a job interview of 45'.
- Finally, if shortlisted, a last interview with the managing director would be set up five working days after your first presentation to finalise the recruitment process.
- Our final answer will be communicated to you officially five working days after your last meeting with our managing director.

Apply online. Send your details, a short note on why this role fits you, and your CV as a PDF on the **kaizen Project Manager page**. Your application goes straight to the Kainjoo hiring team.

Kainjoo Consulting Group SA · Rue du Sablon 2, 1110 Morges, Switzerland
